

## **Contract Award Notice**

### **Tablet Computers, Peripherals and Value Added Services**

**Contract Number: 15-20454-410**

**Provider: Paragon Development Systems (PDS)**

**Effective Date: May 10, 2004**

**Contract Term: May 10, 2004 through June 30, 2005**

**Replaces the following contracts:**

**15-39100-101: WSCA Microcomputer Contract—Hewlett Packard/Compaq**

**15-39100-102: WSCA Microcomputer Contract—Dell**

**15-39100-103: WSCA Microcomputer Contract—IBM**

**15-39100-104: WSCA Microcomputer Contract—Gateway**

These contracts will remain in effect for servers for state agencies and available to the University System and local units of government in entirety. *State agencies may not use these contracts for desktop, laptops, tablets, peripherals or services.*

**15-39100-200: Intel Microcomputers and Services—IBM and Gateway**

**15-39100-205: Intel Microcomputers and Services—Dell, HP and Toshiba**

These contracts will expire on June 30 and will not be extended.

As part of the state's initiative to standardize hardware the contract for **Tablet Computers, Peripherals and Value Added Services** has been awarded to Paragon Development Systems (PDS) representing Hewlett Packard. The Desktop Domain Subcommittee of the Technology Leadership Council has set standards for a tablet computer that will be the only tablet computer available to state agencies. Memory, optical drive, and hard drive upgrades are available through this contract as well as services such as imaging, installation, extended warranties and asset tagging.

Attached to this document is pricing for the included commodities as well as contact information. PDS and HP are prepared to receive orders starting Monday May 10 in order to deliver by the end of the fiscal year. All information will be posted to Vendornet.

It is expected that the tablet computer specified on this contract should meet 75 to 80% of the state's computing needs, however, a "Business Case Exception" process is being finalized if this configuration does not meet the needs of specialized applications.

Monitors, peripherals and value added services are available through this contract. Peripherals will also be available through contract 15-20468-415, Peripherals, to be awarded on or before May 10.

Other contracts awarded as part of this bid process are:

15-20453-400 Desktop Computers, Peripherals and Value Added Services awarded to Insight Public Sector.

15-20454-405, Laptop Computers, Peripherals and Value Added Services awarded to Insight Public Sector.

**ATTACHMENT E**  
**Value-Added Service Price Sheet**

**Services Price Sheet:**

Provider must provide, as a complement to the “Base Warranty Options”, preventive and predictive hardware support as well as warranty repair and replacement support. See section 10 of this RFB. This also includes providing support and assistance in complex and difficult network, operational and software problems. Pricing must be provided for all categories listed on this sheet. Bids received without pricing for all services categories may be rejected. These prices are the maximum the State will accept for services during the contract term. We reserve the right to negotiate lower prices on a project basis. The State reserves the right to negotiate mileage separately on a project basis but will pay no more than the State rate for mileage which is \$ .29/mile.

<b><u>Service Description</u></b>	<b><u>Charge</u></b>	<b><u>Mileage</u></b>
